

Jump Start Tuition Grant

Eligibility Requirements

The Jump Start Grant is intended for HS seniors enrolling in college courses with no intention of transferring the credits back to the high school to use toward HS graduation. This program offers HS seniors an opportunity to get a “jump start” on their college education.

The Jump Start Grant is available to students maintaining **senior status**. Senior status begins with the summer term prior to the senior year, continues to the fall semester and ends with graduation in the spring semester. Students may divide the credit hours over the summer, fall and spring terms or they may use the full 12 credit hours in any one term. Dual Enrollment Tuition & Fee Grant requests are included in the allowable 12 credit-hour limit.

The Jump Start Grant Program pays in-state tuition for 1000 and 2000 level college courses. Books and supplies are not covered by the college. NWCCD may decline this application if the student has not shown satisfactory academic performance in prior college courses. **Students must pay tuition and fees by the first day of the semester.** The student will be refunded the cost of **tuition only** if the student successfully completes the class(es) with a grade of “C” or better.

Students must complete this application in its entirety, including both signatures, prior to registering for college classes intended to be covered by this grant.

This application and approval process is based on “first come, first served” until funds are expended. This form must accompany a college registration form, which must also be completed in full with all required signatures. A new form must be completed and submitted each semester.
